

**Your small business.
Our big solution.**

Goodbye paper timecards. Hello Timelogix.

After 10 years of experience, and feedback from many of our 50,000+ customers.

We introduce Timelogix, our easy to use, intuitive, and low cost all in one fingerprint time & attendance solution. *Made for you, the small business owner...*

Some of the many benefits & features...

- Easy to use and install
- Eliminates buddy punching
- Save up to 10% of payroll
- Works online & offline
- Smart Timecard
- Powerful Reports
- Built in Wi-Fi
- Download time via USB
- Scheduling
- Multiple pay periods
- Control Overtime & Breaks

It all starts with the Time Clock

We've designed the Timelogix employee Time Clock with all the bells and whistles you need to collect employee time data fast and accurately to communicate with our time & attendance software. With our plug and play technology you can be up and running in minutes.

The time & attendance software

Now that we have covered the ability to collect and transfer data from the time clock to the software, now this data has to be managed efficiently. The Timelogix time and attendance software was built with that in mind, we added all the features you need to manage your employees time & attendance in an easy to use, intuitive and low cost solution. This mind blowing user interface allows you to process your time data and make payroll a snap.

Smart Timecard

Easily view, edit & approve timecards all from 1 screen. Get notification of missed punches, late arrival, breaks, OT, see employees that work out of their schedule & much more.

Scheduling

It's never been easier to setup schedules within the software with our interactive schedule assistant. This wizard style interface will lead you step by step to create the schedule rules in a prescribed order so you are never lost.

Powerful Reports

Gain complete visibility with Timelogix reporting solutions which empower you with informed real time decision making capabilities so you can easily convert data into actionable, valuable information.

Who's in Dashboard

This dashboard gives you instant notification of who's at work.

Overtime Management

Keep overtime costs in check with easy to configure rules and settings that increase accuracy and improve compliance to overtime laws.

Lunch & Breaks Policies

This powerful feature allows you to add flexible lunch and break policies keeping you in compliance with local or state laws.

Multiple Pay Periods

We've got you covered with weekly, bi-weekly, semi-monthly and monthly pay periods.

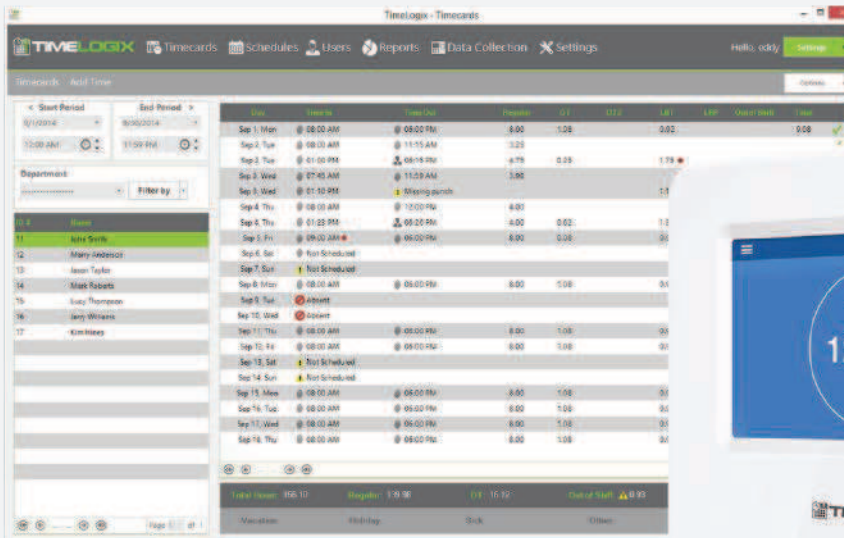

Absence Management

Manage employee absences easily. Also keep records of all paid and non paid time off.

About Us

Timelogix was created to solve a critical business need to deliver an affordable all in one Time and Attendance solution to small business customers. It is no longer 1990 where paper based timecards and manual calculations were your best option. The world has evolved, and it's time that you automate your workforce Time and Attendance process.
